

Launceston College

An Academy Trust

Dear Parent/ Carer ,

Re: Year 10 Science Support Session

As you will be aware your son/daughter is presently in Year 10 and has recently been making progress towards their end of year real GCSE Core Science exams.

We would like to invite him/her to our Year 10 Science Support Session. This support class happens every Thursday from 3.15-4.15pm in S7 and is facilitated by one of our science teachers along with further support from the science faculty. We initially propose that this should be for a 3 week duration, after which progress will be reviewed and potentially extended. In this session we propose that students will be correcting misconceptions, attempting further study in to an area of the syllabus or simply beginning revision early.

As this is not a compulsory session your support would be appreciated as we work together to achieve the best possible results for your son/daughter. Initially we can only accommodate the first 30 student replies; however, in the future we may be able to extend this provision. Please complete and return the slip at the bottom of this letter to your son/daughter's science teacher asap.

Please do not hesitate to contact me for further information.

Yours sincerely

Mr JM Adams
Head of Science
