☒ **vehicle batteries and related components**

☒ **suspension dampers and springs**

☒ **braking systems and components**

## Entry Requirements

Completion of the 14-16 level 1 light vehicle pathway

## Progression routes

It is a fully rounded qualification that also forms a progression pathway between IMI Awards' Technical Level 1 Diplomas (VRQs) and Level 2 Diplomas (VRQs). It supports the students progress into the retail motor vehicle industry, and to a level 2 vocational compency qualification (VCQ)

**Equipment required** – Protective clothing and boots. A range of small tools.

**Other relevant information** – This level 2 Certificate in Vehicle compoment fitting is ideal for students who are interested in learning about the maintenance of motor vehicles. The qualification has a predominantly practical approach to assessment. Learners must demonstrate their selected units' learning outcomes by following and achieving the required assessment components. The assessments for these qualifications combine various assessment styles/methodologies, including written, practical and online tests, in order to suit the levels and subject of the units contained within them.
