

Outdoor Learning Resource

Newsletter *February 2021 update*

This issue includes pictures of young students participating in Outdoor Learning Activities, either at our OL resource, or in their own school grounds.

Altarnun and Egloskerry Primaries

The primaries have been following elements of 'Explorers' theme -activities include stone age tools, Petroglyphs, Viking raiders, Magellan, Capt.Cook, etc, Aboriginal dot art, Maori Ta Moko, clay Moai, pulse raising, singing, dancing, tasting, 'Conquistadoring', Amazonians, tree planting. 5/10 sessions so far. No.6 Tropical Jungle Explorers.

Tree Council

The sapling fruit trees we've ordered on behalf of Long Garden EY, Egloskerry, Altarnun and ourselves, have been planted. They include apple, pear, cherry and plum.

Gardening Now!

Spring bulbs (crocus, snow drops and daffodils), are showing well above ground now. Hopefully they will survive the cold snap expected this week! The growing beds remain protected by leaf mulch bags.

Forest Now!

A 'cave' has been created out of recycled materials, offering another shelter area for students. Currently it is being chipped using our own supply, from felled trees at front of school.

Long Garden Early Years

Our youngest continue puddle stomping, tree trunk clambering, tank rolling, planks balancing, painting, exploring, not to mention increasing their walking strength and crossing the road understanding.
