

## JUBILEE CHALLENGE NEWS LETTER May 2021 UPDATE

Following the Easter break Dylan, (yr.11 ADF) and James, (yr.10 FMP), continued their after school Jubilee training, by increasing their continued walking distance + walking up and downhill. Both boys are making good progress in this respect.

Perhaps the hardest thing for them to do well, is to note how the other one is doing and work as a team to keep each other going. Oh, and keeping conversations going without repeating their selves. We haven't actually got to the stage of 'are we there yet' ha! Which is to their credit.

Making the most of the good weather before w/e storms, they successfully put up an emergency shelter and stowed it away again- not the easiest thing to do!

Wild, wet and windy training in full waterproofs May 20<sup>th</sup> which hopefully means we will walk in bright sunshine on the day- **June 22<sup>nd</sup>!**

Keep up with their progress on the College face book page or here.
