

Outdoor Learning Resource

Newsletter *March 2020 update*

IAG All of year 10 have completed their sessions in spite of continued variable weather. Most classes have been involved in Conservation work and cutting back brambles safely, planting potatoes in bags, as the large beds have been too wet and heavy. Tasting herbs has also featured as many are still used for medicinal purposes (i.e. helping to keep us safe), painting sunflowers. 10 SMZ drew their dream gardens so we were able to enter an M and S sponsored competition for packs of seedlings. Finally, all were rewarded with a mug of hot chocolate.

Nursery

Nursery children have also attempted to draw their gardens with Maija showing some artistry at being able to draw distinct shapes. They also undertook their first walk to DS Smith and the planned, Well Being and Sustainability Garden. No mean feat when you have little legs.

Gardening

Forest

Castle ARB/SPRU

Castle and SPRU students made the most of their Smith's to continue laying chips on the some Cornish dancing with the floral dance.

from DS green coat- and dig over during winter

Smith's, students much better! After their own mini gardens. The mulch bags which protected their gardens were heaped ready for Dig for Victory.

'Cornish' day. First up was a trip to DS Community garden pathways. Next, Using the moss wheelbarrowed back gave 'Eden', our reclining lady, a fresh break, students were back to open up

Feeling peckish we had some Cornish Yuma and hot chocolate before making some batons in Cornish colours. We used up all that food energy by creating our own Morris dances and by then it was time for lunch.
